Message

Esteemed Colleagues, distinguished guests, ladies and gentlemen,

It is an immense privilege to welcome you all to this unique conference on **endoscopy and ART**. The convergence of endoscopy and ART led to the idea of having a conference on this topic.

The advancement made in the field of endoscopic surgery has not only improved ART results but has also opened new avenues for research and discussion.

Our association with the International Society for Gynecologic Endoscopy (ISGE), Indian Association of Gynaecological Endoscopists (IAGE) & Gynae Endocrine Society of India (GESI) has been instrumental in crafting a strong scientific program.

This conference provides a unique platform for us to share our experiences, knowledge and latest updates, propelling us forward in our quest for excellence.

I welcome and encourage each one of you to participate in large numbers and share your expertise and insight while also learning from fellow colleagues. Team POGS has worked very hard to bring this very thoughtful scientific program and esteemed faculty for this 3 days conference.

Let's continue updating our knowledge on Endoscopy and ART shaping a better outcome for our patients.
